NEW ADVERTISEMENTS.

TO MOTHERS.

In a country where the rearing of infants is attended with somewhat exceptional difficulties and risk owing partly to climatic reasons, and partly to the difficulty of getting medical assistance in the 'camp,' an apology is hardly needed for publishing a small hand-book on the subject for the use of mothers. In Dr. Pennel's book on Infant Feeding an attempt has been made to explain in simple terms the reasons on which the various rules and recommendations are based, in order that a mother in modifying her child's diet from time to time as required, may be guided by common sense and not by the hundred and one conflicting counsels, with which she will be assailed. On sale at all bookstalls and libraries.

MONTHLY MAGAZINES are becoming more and more worth reading. The very fact that so many are in the field makes the publishers of them eager to please. We quote The Windsor, Pearson's, The Badminton and Chapman's as instances. Each volume is worth a small library, and we shall be pleased to add as many subscribers as possible to our list. Send your name and address early to Jacobsen's, 499 Florida.

DURING this extraordinary fine summer weather and while the furcoats are still packed down in paper and salt, it is well to remember that a bad cold is equal to a great many miles towards the gates of that eternity for good or evil which awaits us all behind the never-explored mystery of that last grim H. Therefore let us avoid a cold and stick to this world as long as possible forgetting Boer's bankruptcy, Barros Arena border questions and the whole B—hive of bustle and bother by a cup of delicious Mazawettee tea and a handful of Andersen's unrivalled Tit-Bits biscuits, both for sale at the Almacen Ingles, Rivadavia 634.

Telegrams.

(Per Havas Agency.)

United Kingdom

London, 18th—The British forces under General Scott have entered Coomassie, the capital of Ashantee, without meeting any resistance. King Prempeh is taking refuge 30 miles from the capital, and has again made offers for peace.

The strike of Glasgow and Belfast workmen has come to an end. The strikers held a meeting and resolved to return to work on Tuesday next.

The British Government has resolved to fortify Dover as soon as possible. A committee of naval engineers will be appointed to survey the port and draw up the necessary plans for its fortification.

The Abyssinian campaign is followed with the greatest interest by the English people. The principal papers publish long articles praising the bravery of the Italian troops.

The *Times* publishes a telegram from Makalle stating that Menelik is preparing to leave the neighbourhood of Makalle, in view of the heavy losses he sustained in the seven fruitless attacks against the garrison.

France

Paris, 18th—There is a rumour that M. Hanotaux will shortly return to the Foreign Office, as M. Bertholot is inclined to throw up the post to allow him to resume it.

Germany

Berlin, 18th—The city has a most gay and festive appearance. The 25th anniversary of the foundation of the Empire is being celebrated in splendid style. Unter den, Linden, Fredrich's Strasse and other principal streets are splendidly decorated. Military bands and cheers for the Emperor are heard everywhere. The Emperor issued a manifesto calling to mind the sacrifices made by the past generation in fighting for the Union of the German Empire. The rest of the manifesto has created a favorable impression. One thing in the manifesto has called for special attention, and this is where reference is made to the necessity of keeping the army and navy at high pitch of perfection, in order to meet any attempt at an attack by the enemy.

The Government has ordered the arrest of the editor of a Socialist paper in Chemnitz (Saxony), for publishing a violent article against Emperor William.

Spain

Madrid, 18th—News from Cuba is much commented on here in all circles. Most of the papers are convinced that the removal of the present Governor of the island, will speedily put an end to the all but disastrous campaign.

In Barcelona the Socialists are again agitating. The police had a fight there to-day with a rowdy meeting of workmen, and many of the latter were wounded. Several arrests were made.

Italy

Rome, 18th—The latest news from Massoua confirms the pessimistic views on the Abyssinian Question. The Abyssinians have completely surrounded Makalle and all the efforts made by the garrison to dislodge them prove useless. The troops have no water, provisions have given out, and the gallant band are obliged to live on horseflesh. It is feared that General Baratieri will not be able to come up in time to raise the siege.

Austria.

Vienna, 18th—In Court circles it is said that Emperor Francis intends to visit Emperor William in Berlin about the end of March.

Turkey.

Constantinople, 18th—Telegrams from Mecca report numerous outrages of late on the high road from Medina to Djeddah, the authorities being quite impotent to prevent them. Several caravans have been sacked by these highway robbers:

United States

(To the Diario.)

New York, 18th—Telegrams from Seoul state that the Queen of Corea is proved to be dead, but that no further details as regards her end can be obtained.

Telegrams have been received in Washington stating that the Pope has offered to act as arbitrator to obtain a pacific settlement of the Anglo Venezuelan Question, but on the other hand papers of this city publish a despatch from Cardinal Rampolla stating that the Pope simply offered to intercede with the British Government in the Anglo-Venezuelan Question in order to obtain a friendly settlement of the present difficulty.

A meeting of the Autonomist, and Conservative parties was held yesterday in Havannah, and General Campos was present. The Autonomist party's representatives, naturally, expressed their complete satisfaction with the blundering direction of the campaign by General Campos. The Conservatives and Reformers said that Campos was too lenient. Campos referred the matter to the Government in Madrid who at once ordered him to resign and return to Spain, and General Marin to take his place "pro tem". General Weyler has been appointed Commander in Chief in Cuba and sails for Havana to-day. Great hopes are entertained that this energefic soldier will save the Royal cause.

Chile

Valparaiso, 18th—The German residents here are celebrating the 25th anniversary of the foundation of the German Empire: all the German merchants and shopmen have closed their doors.

A meeting will be held to petition Congress to pass the law project for organizing the National Guard.

Exchange is quoted at the same rate.

Brazil

Rio Janeiro, 18th—The coffee harvest in the States of Santo Espiritu, Bahia, and San Pablo is a very abundant one this year.

Thirty cases of yellow fever occurred yesterday in the city.

Argentine Republic

Rosario, 18th—A grand concert will take place this evening in the saloons of the German Club.

Wheat remains firm at 6.70; maize 3.15 to 3.30; linseed is still quoted at 10.50.

OUR LIVE CATTLE TRADE.

Everyone seems astonished at the extraordinary development of our live cattle trade. People who are not very old still remember, when J. Hannah, Henry Harrat and James Sheridan were the only breeders of fine rams and sheep in the country, and as for fine cattle, there was really in those times no such thing known as a "rodeo" of 'mestizo' cows in the whole republic. We believe Mr. Leonardo Pereira, and Mr. José Martinez de Hoz were about the first to improve the breed of cows. Mr. Hannah paid no attention whatever to improving the breed of cattle; his whole attention being devoted to sheep.

The list of exports published in our columns every morning shows to what astounding magnitude the agricultural production of the country has grown. The boys that were shooting marbles around Mr. Christophersen's office in Calle Mayo when we claimed a free estancia for him for being the first to ship in one vessel 13,000 bags of wheat to Europe, have not yet grown to manhood, and who to-day in the Plate talks of the shipment of 13.000 bags of wheat? The truth of the matter is, our production has surpassed every estimate and very calculation, and now we note our live cattle shipments are following in the same wake. Down at the Madero Docks the busiest people are the carpenters, covering up fore and aft the steamers with pine corrals to carry the live-stock to Europe; one can judge by the work going on the importance of the trade and the number of animals being shipped, and the question naturally suggests itself, how long will the country be able to stand such a drain on its live-stock?

The best answer to this question we find in a "Boletin" published by Messrs. Lockwood and Co. called the "Boletin de Lawes," a really most useful publication since it gives the names of all the principal sheep and cattle breeding estancias in the Plate, and their name is simply Legion. The following is this most interesting list:—

ROSARIO.

THE DREDGING OF OUR PORT

OUR MAYOR VERSUS LIGHT.

OUR CROPS.

"FIN DE SIECLE" METHOD WITH DEBTORS.

(From Our Own Correspondent.)

January 16th.

"Lo barato cuesta caro" is a very true saying, and it may be applied, constituting the word cheap for 'inservible,' to the dredges, which, after so much petitioning and so such unaccountable delays, the National Government was so kind as to send us to prevent our port from being definitely blocked up.

The dredges arrived, the installation of the service took place, and some hundreds of cubic metres of sand were transferred from the bottom of the river to the "playa," and we all felt happy at the prospect of again seeing our port unobstructed and

in a condition of fulfilling the requirements for which nature has adapted it.

I must say that from the beginning I had my doubts as to the proper execution of the work, considering the parsimoniousness with which Government provided the elements, and these doubts are likely to be turned into certainties before long, as the dredges are old and patched up and they can hardly bear the stress of work they are supposed to accomplish. An old fiddle, it is said, is apt to bring forth a good tune, but I'll be blessed if an old dredger can bring up the mud and sand from our river channels in anything like the quantity required to make the work effective.

There they are, the two beauties, quietly anchored on our river, because for some reason or other they cannot work except at a given depth of water, and they certainly do not look to be the sort of agents we require for cleaning our river, but more so as old veterans of the service who should be sent to the "cuerpo de invalidos" with a pension.

M. Bonnemaison, the directing engineer, is quite competent enough to carry out the work properly and in an effective manner, but of course this cannot be done unless he has at his command the necessary elements, and these of good sound material.

As I have said before, not once but pretty often, the long delay to which, by indifference or other causes, the dredging of our port has been subjected to his mode of an enterprise, which had it been attended to in time, would have been as child's play, a serious operation to-day, and which daily becomes all the more so. The work must be tackled with a will, and with sufficient and reliable elements in order to complete it in a satisfactory manner. Meanwhile, and at the present rate, we are not likely to advance much towards the desired object. Let M. Bonnemaison be provided with a first-class dredging train and other necessary material, because otherwise, "lo barato va á salir caro", and it will be like digging a hole in order to fill one alongside of it with our port work. The National Government ought to bear in mind that this port of ours contributes towards the country's revenue with no less than an average of six millions of dollars per annum.

All our suburb inhabitants are loudly clamouring for light—any light from incandescent to a tallow candle, but light of some kind they must have, and they are right. Our good Mayor, (God bless him!) hears the cry of course—more, he knows the justice of it, yet the light is not provided, to the undisguised delight of night birds of all hues and plumage, and to the disgust and annoyance of the peaceful inhabitants. Probably our "Intendente" thinks the matter too trivial for his high consideration, or else he must have signed a treaty of alliance with the Rosario agents and proselytes of the planet Mercury, who at this rate will be honoured by us as it already is in San Diego, as a patron and tutelary deity. Now then "Señor Intendente" of our good city of Rosario, and joking apart,—condescend to exert your endeavours towards the fulfilment of your duty by attending, amongst many others, the just demands of a good number of its inhabitants, and give them not the right to question the truth about the present one being "el siglo de las luces".

* * *

The rain we had three or four days ago, and the murky and threatening weather we are still having is doing further damage to the crops—and although opinions are contradictory as to what this will eventually prove, I believe optimists are a good way from being right. What with the hail, the locusts and the rainy season we are having, the Santa Fé crops will not prove A 1 this harvest either in quality or quantity.

* * *

A worthy disciple of St. Crispin in our city has discovered a new and "fin de siecle" method of dealing with his morose debtors. A dandified young fellow having by some means or other got from him a pair of boots "on tick," started on the "vuelva mañana" system of payment, which course eventually exhausting the patience of the man of boots, he and one his assistants awaited their opportunity, and one fine day not long ago, the unsuspecting victim fell into the arms of the bootmaker's man, who quickly floored him, while his "patron" took the young fellow's boots off in the open street and marched back in triumph with them into his shop!

I trust that such extreme measures are not to become "a la moda" either with bootmakers or tailors in these light packet times, when even that hard hearted man, Jaybrowntermscash—Gracious me! what a horrid name for a tailor!—has, I doubt not, to stretch a point, "de cuando en cuando." Let not Mr. J. B. T. C. imagine for an instant that I thus advertise him gratis, with any dark and ulterior designs upon him. It would be a case of "Honi soit qui mal y pense" as, thank Providence, I have a flash and humane tailor in Buenos Aires, who has a soft spot in his heart towards his impecunious debtors and is content to wait philosophically for better times to come.

THE GERMAN FETE.

For the second time in the last few months the beautiful gardens of the Pabellon Argentino, overlooking the mighty expanse of the Plate, were last night the scene of a German patriotic festival. Last April our German friends feted the Bismarck birth-day, last night the 25th anniversary of the Proclamation of the German Empire in the Versailles Palace in 1871. The whole German colony turned out in full force in true democratic fashion and the assemblage of well-dressed women and men was one that might make any nationality proud. In the gait and carriage of the men one could detect the Freiwillige Einjährige training, blended with the courtly urbanity that is diffused in a River Plate ambient. At eight o'clock the aspect of the gardens was delightful; it looked like a peep into fairy-land—a dazzling array of fair women and men, of lights and colors, a sparkling scene of pleasure and enthusiam—one of those gatherings for which the German residents are famous in our social record.

All the arrangements were perfect. The best taste was displayed in the decorations and illuminations, and the delightful balmy evening, refreshed by breezes from the river, helped to complete the work of the Committee, who deserve much credit, viz.:—A. Altgelt, President; C. Nordmann, vice-President; O Beines and O. Straube, secretaries; F. du Vinage and J. Aretz, treasurers; H. Altgelt, E. W. Bussmann, R. Bosenberg, O. Eilenberger, A. Feistel, F. Fritzsch, F. Fessel, J. W. Heinlein, E. O. Hoelle, R. Heinrichs, R. Oltmann, E. Kahn, R. Haufmann, Herm. Tjarks, J. Wolff, A. Wipperling. The efforts of this Committee were the subject of general praise, and were crowned with the greatest success. It was a pity that at half past eight the storm marred the feast and the crowd had to adjourn to the Pabellon Building, but this did not spoil the fun and the programme was carried through. The speech on the Kaiser and the Fest. These were features of the evening, but the speech on Argentiaa was the great event of the night. In view of the approaching storm the fire-works came off at half-past eight. Some slight changes in the programme, the overture of Lohengrin being performed after the Kaiser Rede. Dr. Julius Woolff made a splendid Fest Rede, and we regret that we cannot dwell on it at length.

Mr. Ad. Altgelt, President of the Committee, delivered a lengthy and eloquent speech on the Argentine Republic. Every sentence in his long address breathed a fervor, a pride, and a love of Argentina, that electrified the audience, especially in the peroration. He sketched the growth of Buenos Ayres and of the Republic from the days of Rosas, the growth of population, of trade, of railways, of wealth, of architecture—in fact, of every phase in the evolution of a civilized country. He praised the Argentine's character and his boundless hospitality. In his peroration, with great felicity, he drew a delicate picture of the Argentine woman as wife and as mother, and wound up with her most characteristic virtue—Charity, which was so ingrained in the people that he might well say that Argentines are the most charitable nation on this sphere.

The Kaiserlied and Wacht Am Rhein brought the First Part of the programme to an end. The fire-works that followed were an enlivening feature of the feast and were very effective. The concert was, as might be expected, superb and the selections congenial to the surroundings. The Music was in charge of Mr. Robert Oltmann and the caterer was Mine Host Carl Aue—no commentary necessary. The entertainment was splendid and will be long remembered in Buenos Ayres. General Roca could not attend, but sent a polite note to excuse his absence. The General, as our German friends know, was a personal friend of the old Kaiser and is a great admirer of Prince Bismarck, with whom he corresponds frequently.

LIFE INSURANCE IN BRAZIL.

To the Editor of
THE STANDARD,

Dear Sir:

In the *Review of the River Plate* of the 11th instant, I find an article about the American Life Insurance Companies in Brazil, which, without apparent animosity, is not just either to Brazil or to the Equitable. In view of the close relations existing between the Editor of *The Review* and the New York Life, I cannot question the accuracy of his information regarding the experience of the latter Company in Brazil; but he is certainly misinformed so far as relates to the experience of the Equitable, and it seems to me advisable to correct some of the erroneous impressions made by the article in question.

I was on the spot during the whole discussion of the recent legislation which resulted in driving the two American companies out of Brazil. I read everything that was published about the matter, and I have always been in a position to know the facts.

In the first place, I do not think that it was the intention of the public powers of Brazil to expel the American companies.

Although the Head Officers of the New York Life declared from the first to the Head Officers of the Equitable, that the New York Life would not comply with the law, but would retire if it should be passed, the representatives of the New York Life in Brazil always prevended that their Company would comply and not retire. They supported the measure from the first, and even went so far as to secure, publish and present to Congress signatures of more than three hundred of their own policyholders in favour of the legislation. The public powers naturally supposed that, if the New York Life was willing to comply with the law, there was no reason why the Equitable should not do the same.

The native companies did not ask for the law. Dr. Magalhaes, President of "A Educadora", the most important Brazilian Company, declared in the press that it was not his company that was paying so much to push the law through, and that it suited their interests better to compete with serious foreign companies which gave credit to the business, rather than to compete with such national companies, incapable of living, as would be organized if the American companies should retire.

The *Review* was misinformed also about the American Companies being obliged to considerably raise their premium tables. In fact, the New York Life did in December 1893, propose to the Equitable an increase of 10 % in the rates throughout South America, but the Equitable did not agree to the proposition, and did not increase its rates then, or since, in Brazil. The experience of the Equitable has not proved the necessity of such increase. On a considerable number of 15-year Tontine policies issued in Brazil in 1879 and maturing in 1894, the results, taking into account the premiums received and the mortality experienced, enabled the Equitable to return to the surviving holders of these policies more than the extra premium paid by them for tropical residence, in addition to the returns on similar policies issued in the United States.

So far as the Equitable is concerned, it is a mistake to say that its business was reduced in recent years to a mere exchange speculation. The question of effecting assurances in the paper money of Brazil was thoroughly considered by the Equitable before beginning operations in that currency, and a safe basis was arranged so that *its* representatives in Brazil have never found it necessary to engage in exchange speculations in order to save themselves or the Company from loss. The Equitable kept, and keeps, in Brazilian currency, a working balance sufficient to meet maturing obligations for claims and expenses, remitting the accruing surplus at regular intervals for safe investment in funds of steady value. It is stipulated in the policy contracts that, in apportioning the surplus at the end of the Tontine, or accumulation, period of 15 or 20 years, the profits and losses arising from the fluctuations in exchange shall be taken into account. If the currency should appreciate in value, the surplus or profits would be correspondingly reduced, but the assured would be amply compensated by the enhanced value of the currency in which the principal or reserve and surplus would be payable, and *vice-versa*. In Brazil this enhancement would be understood and appreciated, because all prices there so quickly adjust themselves to the gold value of the circulating medium, due to the fact that Brazil exports the greater part of what it produces, and imports the greater part of what it consumes. Investment in funds of unstable value would certainly be speculation; but the immediate conversion of the surplus income from an unstable to a stable currency and safe investment therein, cannot properly be called a mere exchange speculation.

The *Review's* information regarding the excessive mortality in Brazil should be and probably is correct so far as the New York Life is concerned, but it is positiuely incorrect so far as it relates to the experience of the Equitable. As to yellow fever, it costs the Equitable less in Brazil than influenza in the River Plate. In 1894, the worst year for yellow-fever in Rio, the Equitable experienced only one loss from that disease in Brazil, and three losses from influenza in the River Plate, where it has only about one half as many outstanding risks as in Brazil.

So far as the Equitable is concerned, it is not a fact well-known or otherwise that a large number of person have been insured without undergoing the usual medical examination. Neither is it true that the Equitable's losses in Brazil are assuming alarming proportions. The death-claims paid by the Equitable in Brazil during the year just closed, amounted to only Sixteen per cent (16%) of the premiums received, or less than Nine per mil (9 °/₀₀) of the sum assured. Even on business so recent as that of the Equitable in Brazil, such mortality is the contrary of alarming, and indicates careful selection of risks with probability of profitable results to the surviving policyholders.

As to the foreign companies making an effort to have the prohibitive laws repealed during the next session of the legislature, that is highly improbable. The Equitable frankly opposed the proposed law so long as under discussion, but it will make no effort to have it annulled in the Courts or repealed by Congress. The New York Life will hardly take the trouble to have undone that which cost them or their representatives so much to have done, especially since their new so-called Brazilian company, "A Sul America," is already issuing policies on forms engraved and printed in New York on paper containing the watermark of the New York Life.

Yours truly,
T. T. Watson.

ITALY IN AFRICA.

The news published by the London *Times* with regard to the probable capitulation of Makalle garrison has created a sensation all over Europe, but it is asserted that the news is only a mere rumour.

The scarcity of news from General Baratieri is put down to the fact that the General wants to work in silence, and not disturb his plan of campaign by letting the whole world know what he intends to do.

It is also asserted that General Baratieri has divided his army into three columns; one under the command of General Arimondi and the second under Colonel Albertone, whilst he will take command of the third. The three columns have already started from Adigrat and are marching on Makalle (it is high time Colonel Galliano were relieved, as he cannot hold out much longer) General Baratieri abandoning, we may say, Col. Galliano and exposing him to 70,000 of Menelik's men is a very ticklish and anything but prudent stroke of generalship on his part, as the Italian troops might suffer a repetition of the Amba Alagi disaster. However, the Italian Government and the Italian people have great faith in General's Baratieri. It is known that the General intention is to gradually surround the enemy and force him to give in.

Emperor William has sent King Humbert an autograph letter expressing his great admiration for the bravery displayed by the Italian troops in Abyssinia.

The Public Works Board has advised Government to authorise the Catalinas Company to lay another junction from its deposits with the line that goes to the South Darsena.

The Engineers Department has recommended the Government to authorize the Entre Rios Railways Company to erect a shed for goods in the port of Gualeguay. The Department has also submitted for the approbation of the Government the plans of the Southern of Santa Fé and Cordoba Company for the works to be carried out at Villa Constitucion.

The Executive has consented to permit the establishment of a station on the Andine line at kilometre 18 between Dalmacio Velez and Villa Maria, the neighbours having undertaken to provide the necessary land and building material, and also to pay the staff employed at the new station.

SPORT.

Mrs. Boyd has kindly consented to preside at the teatable, at the Lawn Tennis Tournament in Flores to-day.

We hear that the promising but juvenile Lawn Tennis Club at San Martin has received a great accession of strength and is practising hard with a view to challenging some of its older colleagues, who will have to look to their laurels.

CRICKET.

We learn that the match between Rosario Railway Club and the London Bank which was to have been played at Belgrano to-day has been declared off. Cause, some difficulty about getting up the teams.

The following will represent Lomas at Retiro to-day, play to start at 10.45: Y. O. Anderson, A. Anderson, H. B. Anderson, G. Gonsalves, C. R. Tupholme, G. M. Comber, R. J. Halstead, F. H. Jacobs, A. Byard, D. Duncan and P. L. G. Bridger.

LA PLATA.

(From our own Correspondent)

January 18th.

An additional train from Quilmes to the Central is to be run on Sundays and holidays at 10 p.m.

The police are investigating a scandal, in which mesmerism takes a leading part, and in which several persons well known in society are involved.

A little boy, 8 years old, was to-day found drowned in the waters of the Gran Dock.

On the Ensenada line a special train of one saloon carriage will in future cost $3 gold per kilometre, the minimum to be charged being $40 gold. A reduction of 50% will be allowed for the return journey, 6 hours being allotted for waiting. Night trains 30% additional.

Ex-Mayor Lavalle is to be prosecuted for having sent 135 draught animals out to grass at Tuyu, 5 years ago, without proper permission from the Council.

Two accidents are reported with revolvers—one in Bolivar and the other in San Nicolas.

EDITOR'S TABLE.

The heat yesterday was the next thing to blasting, and the past participle of the verb to blast will probably be used to-day in reference to the temperature. Fortunately, there is nothing on the card for to-day but Lawn Tennis and cricket and tea, two child-like and innocent amusements which no liberal-minded Sabbatarian can object to. But who can enjoy even going to church on Sunday after the trick played on the poor Gold Eagle by our Financial Sphinx, who has raised a big loan in London behind the back of the bird on whose vigorous health the Sphinx's acrobatic Budget depends. But, really, there is no understanding the Sphinx and his London and Berlin friends.

Our Packet Edition for the French mail steamer Portugal to-morrow is on sale to-day at our office. It is better to mail by the Duchessa di Genova on the 22nd, as she will beat the Frenchman by a couple of days at least in the run to Europe.

We return our best thanks to our kind and friendly colleague Mr. Manuel Lainez, of the *Diario* for favouring us with the telegram from New York in another column, which arrived too late yesterday for publication in the second edition of his newsy evening paper.

We have received a letter from the Hony. Secy. of the British and American Benevolent Society expressing the thanks of the Commitree for the free insertion in this journal of advertisements and notices during the past year. We are always glad to help a deserving charity. We are sorry to hear it is very short of funds, in fact in debt to the Hony. Treasurer to the amount of two thousand dollars. Some well known amateurs give a Smoking Concert next Saturday at the Eden Theatre in aid of the funds when we hope there will be a bumper house.

A fully attended meeting of the Stall-Holders of the Scotch Bazaar was held yesterday, when the Revd. J. W. Fleming reported everything progressing most favorably. It is proposed to open the Bazaar on April 14th, and it will remain open for four days. A great feature will be the arrangement of the various stalls, which will be done in a manner hitherto unknown here. The inside of the hall will be built to represent a street in old Edinburgh, which in itself should attract a great number of people. At the same time this country will not be forgotten, as there will be a native "rancho" attended by gauchos and ladies dressed in appropriate costsme.

With regard to the anniversary which the German colony celebrated yesterday in this city there was one regrettable incident which caused much comment and occasioned very grave reflections among our friends the Belgians. It seems that from the balcony of the premises Florida No 125 there was displayed side by side with the German flag that of the Belgians, whose nation have no cause either love or hate their neighbours or to feel any enthusiasm about their anniversary. Hence it was felt by Belgians that the display of their flag was uncalled for. We understand that the party responsible, when requested to remove the flag, treated the request in the most offensive way. It is said that the matter will not rest there, but that the Belgian Consulate will take some steps that will give a full explanation of the matter.

The Eqqitable Insurance Company sent round its charming "Tesoro del Hogar' yesterday. The illustrations are very nice, especially that of the Virgin and Child.

The sea-bathing-drum is being beaten vigorously at Mar del Plata, and if the place is not bursting with fashionables it is not the fault of those who are running it. One hundred people arrived there on Friday morning. To-night the first ball of the season comes off in the Bristol. Hot or cold, summer or winter, young people are always ready for a dance.

The new street recently traced on the Flores Road from the Devil's Glen to the Western Railway is to be called Calle Yatay, and is meant more as a drain for the storm water than anything else. The railway company has given permission to cut through the earthworks, but there is no sign as yet of this work being commenced.

The week wound up briskly enough yesterday in the way of European news. The "turbaned and malignant Turk's" empire is going to the last of the three D's, and the famous "European concert," which Lord Salisbury patted on the back at the Guildhall banquet has already arrived there and burst up—flutes, fiddles, big drums, trombones, trumpets, and the whole boiling. The Italians are holding out like bricks against that Scotch-Irishman McKinnon at Makalle, and if General Baratieri (another Irishman, whose real name is Barry) only hurries up with reinforcements, he will save the situation. The Dons in Cuba are done for, unless General Oldpole (Palavieja), the new Governor, is able to change the face of affairs. Our little war in Ashantee is over. Colonel Scott has taken Coomassie without firing a shot, and has promised to restore King Coffee's umbrella (captured the last time we took that city) if King Prempeh makes peace like a good and sensible nigger. The most important piece of news from Europe is that Dover is to be forttfied at once. This shows beyond yea or nay that John Bull expects a naval war.

We have received a letter from a Scotch subscriber taking to task our London Correspondent for his arch-radicalism. We regret that owing to pressure on our space we cannot publish it to-day, but it will keep for Tuesday. Our enraged Scotch subscriber must remember that our trusty, spicy, and invaluable correspondent writes "calamo currente" from his diggings in the Liberal Club—one may join issue with him, but who can help admiring that Toledo pen he wields.

These are great religious doings at San Martin to-day. Archbishop Castellanos will celebrate Mass and confirm a number of children, and subsequently there will be "sports on the green" (Plaza), and all kinds of fun.

The gem of the last issue of the *Ilustracion Sud Americana* is our esteemed friend Mr. Thomas Kincaid's beautiful estancia on the Rio Negro. His friends rushed to buy the paper yesterday. The lovely scene reminds us of the Vale of Avoca in the County Wicklow in old Ireland.

We call the attention of our lady readers to several "avisitos" from the oldest "tienda" in the city, that of Auld and Co., in Calle Alsina, which has the well-earned reputation of never selling an inferior article.

There was soul-shivering news yesterday about the Bolivian Boundary Commission under Colonel Olascoaga. Engineer Lugones has thrown up his post on it, as he says the gallant Colonel is by no means the right man in the right place.

Our esteemed contemporary the *Deutsche La Plata Zeitung* published a splendid Special Edition yesterday, with a beautiful lithograph done by Her Rouland of Werner's great painting of the Proclamation of the German Empire at Versailles. There is old Emperor William, with his son Frederick the Crown Prince, on his right and the Grand Duké of Baden on his left, raising his right hand to give the first hurrah for the new Kaiser. Bismark is in front, reading the proclamation, with Moltke beside him. The storm in the evening threw a damper on the racket at the Argentine Pavilion.

There will be splendid treat for lovers of good music at the Operai Italian to-morrow night, when the superior pupil of the "Conservatorio Argentino de Musica" will perform those pieces, with which they passed their examination. We beg to thank Sr. Pallemaerts for his kind invitation.

The Kinetophone, and Autometon Draught Player, are still in full swing, but owing to previous engagements, can only remain here a short time longer, and those who have not seen the extraordinary show should not lose the opportunity. On Thursday next, the entire proceeds of the day, without deduction of any sort, will be given to the "Hijas de Misericordia." This is the proper way to give a benefit, and Sr. Finger deserves all credit for his generosity.

We call attention to Miss Taylor's advertizement of a Nursing home in Rosario, an institution that will meet a long-felt want in that rapidly growing place.

We learn from our British confrere at Montevideo that "the terrible Bank question" was allowed a rest, on Thursday Whoevever allowed it a rest even for one day, did wrong: there should be no rest for the wicked.

The *Courrier de la Plata* made all the men about town laugh yesterday with a story of a nice and naughty old gentleman in Paris, a retired official named Dhucque (A lineal descendant of Rhoderick Dhu, no doubt) who asked two ladies (?) to supper in a "cabinet particulier" in a swell restaurant. One of the fair ones was married and mature: the other was a girl. The supper was grand, the night was warm, and, as ladies who sup with old gentlemen at restaurants are thoroughly "new" in their ideas, the host took off his coat and supped in his shirt-sleeves. After supper the mature lady, with an arch smile, remarked that "two are company, but three are trumpery", and retired. Hours afterwards, when the "tete a tete" with Mademoiselle was over, the old chappie remembered his coat and gave a yell like a Yahoo. The coat, with 50,000 francs in the breast pocket was gone. The married and mature lady had taken it and the night train for Bourdeaux, where she took steamer for South America, and the only uncertainty about her now is, whether she is in Rio Janeiro, Montevideo, or this city.

Is n't old John Bull preparing to lick somebody? "You bet," as our cousins in the North say. According to the official figures of the Admiralty there were building for the British Navy on the 1st of November, 1895; 49 vessels of various sizes and designs, including the armoured battleships Cæsar, Hannibal, Illustrious, Jupiter and Mars of 16 guns and 14900 tons each, the Powerful of 14 guns, 14200 tons, 25000 horse power, 12 cruisers of 2135 to 5750 tons each, and 30 torpedo-boat destroyers of 3200 to 6000 horse power. Now add the ten new cruisers ordered a few days ago, and we can see that matters are looking unpleasant for any Power or Powers that harbour the perilous thought of interfering with Britannia's sway on the Ocean wave.

Here is the description of the town of Kaneville in Illinois, turned inside out by the tremendous results of Miss Edna Brown's philanthropic "chain letter". For comical exaggeration the following almost equals the famous mule steam whistle of 20 years ago, which kept all our readers on the broad grin for three months and two days. This is how the *Chicago Chronicle* describes the condition of Kaneville:—"Kaneville is flooded with mail matter. Postage stamps and stacked up in farmhouses around Kaneville like wheat in a bin. . . The opening of these letters alone is a task too much for a dozen persons. The neighbours are country people for miles around have helped in this work, taking the letters home in sacks and waggon loads to open and sort out the stamps. These honest country folks don't know what to think about it all. They know that letters are coming 'by the bushels.' Everybody within a radius of five miles of Kaneville has opened letters and sorted old stamps until every house and corn crib looks like a post office, till every grain sheaf and corn shock and haystack looks like a mail pouch or pile of mail pouches, till every chip and rustling leaf is to the perforated edges and gummed backs of their rustic minds a postage stamp. Kaneville is buried under letters and postage stamps; postal revenues and receipts is the topic there instead of crops, and philately is studied instead of the weather indications. The Kaneville post office is swamped with letters. About 16 out of every 5,000 letters received there are for some of the other 75 or more residents of Kaneville—all the rest are addressed to Edna R. Brown. Over 2,000,000 letters and 30,000,000 stamps have been already received in Kaneville, and no one can say when the end will come."

After a long absence from our Table, so, long that we donned complimentary mourning for our pious colleague, *The Gleaner*, thinking it had gone to glory, we had the great pleasure of reading it again yesterday, and are glad to see it in good health. We learn from its columns that Free thinking is not by any means a paying business in that fine Australasian city Sydney the *Telegraph* of which place announces that the Lyceum Freethought Hall in Campbell-street, which cost £4500, and was dedicated "to the destruction of Christianity and Godism in Sydney", has been bought for half the money by the Church of Christ."

The Kalendar sea son still draws out its lingering sweetness. We have to thank the Club Calzado, San Martin 34, for a very nice one in the very appropriate form of a lady's boot of the latest fashion.

The Progreso de Almagro Society sent round invitations yesterday for a grand celebration of its 12th anniversary, to commence on Thursday next 23rd and last till the 9th of February. There will be rifle shooting, a bazaar and Lottery' music "ad libitum", all sorts of games, and a "Baile Social con sorpresas". A splendid programme.

We regret very much to hear that one of our crack Polo subscribers met with an ugly fall yesterday and hurt his leg. His own version of the affair is that he was reading something funny in this column while walking along the street, and suddenly found himself on the top of his hat and broad of his back; but whether it was the "something funny," an orange peel, or a stray paving stone that floored him, he is quite unable to say or swear.

A twin sister, or at least a first cousin of the rather queer furniture business in the Senate here has been denounced by the *Nacional* of Montevideo, which makes the charge "that the Government has recently bought from a certain Sr. Aguirre three squares of land near the Cerro, as a site for powder magazines. The real value of the land is about $4000, but the Government ostensibly pays—that is to say charges the public treasury with—the price of $10,000, of which about half will reach the vendor."

The odds and ends of news from Europe yesterday by cable and otherwise were interesting. That sleek old gentleman the King of the Belgians, who never wears gloves, although his hands are no great shakes, is in London, palavering with Lord Salisbury about the Free Congo State, which His Majesty wants to sell to France; but, we should say, the portly Cecil won't hear of it. The natives at Goa are still making life miserable for the Portuguese, and the best thing the latter can do is to sell the whole colony to John Bull and let Tommy Atkins deal with the Fuzzy-Wuzzies.

The news from the breezy hills of pious and learned Cordoba could not be better. President Uriburu is now quite himself again, and intends to remain where he is till the month is over, when he will stay for a few days in the city of Cordoba and then come straight here to resume the reins and cares of office.

The latest news from the other side of the Andes is that our peace-loving friends the Chilians have worked up their total Census figure to four millions of souls and bodies and eight millions of soles and boots for the whole Republic. The Chilians are great hands at figures. If they are right, the Argentine Census figures must be tremendously under the mark, as it is quite absurd to suppose that Argentina, with all her advantages in Immigration, is only half a million souls ahead of the West Coast republic.

FASHIONS AND ACTUALITIES.

I was paying a visit, "avant la lettre," (it is one of my prerogatives as reporter) to a house which was opened yesterday in Calle Florida, and which interests you particularly, Mesdames, as amateurs of tea and coffee. Certainly you have remarked like myself during the installation, that its Chinese aspect attracts general attention. The proprietors, Messrs Despiaux and Company, have taken as a maxim to sell pure and guaranteed productions. You know as well as I how delicate their articles are, and we have often learnt to our cost how easy it is to be mistaken. So, I saw, with real satisfaction, the precautions which have been taken by this new house. The consignments of teas and coffees come direct from head quarters, and are treated with the greatest care. Coffees above all, which require to be tasted by "connoisseurs," after they have undergone the operation of passing through high-class machines like those used by Messrs Despiaux and Company. The house is divided into six different departments, the first is reserved for the sales, and you will find there, my dear readers, with whom to treat, because the staff is polyglot and many of the clerks speak English. In the other departments are installed the torrefactors, the coffee-mills, the warehouse and the offices.

Finally, this house is opened under the best auspices and appears to me to promise a great success.

—

Now, we will say something about Carnival. They say that this year it will rise again from its ashes like the Phoenix and retake its former splendour. Why not? It is long since that old codger Momus is acting the dormouse; and he must be tired enough with his repose to want to return to his merry sports of the good old days. I have not witnessed here the jollity of former Corsos, and I was only present at the monotonous "fiascos" of these latter years; but old residents give me such a description of the Saturnalian animation d'antan, that I am impatiently waiting for its coming again, even should I really be drenched with "agua Florida!"

After all, it rests for us to revive those pleasurable evenings; we have but to give it a set-off. I hope we have as much spirit and gaiety as our predecessors, so if it be this year the fashion to bring out one and the other the success of the approaching Carnival should be guaranteed.

Where shall we find a better occasion to make a joke on actual fashions, and to wear what we like for a time, and any style of head-dress which suits our faces. All the wardrobes of ancient times are at our disposal from the "vertugadin" of Catherine de Medicis to the Marchioness baskets of Louis X V, from the powder and the patch in the chin of the latter to the Marie Stuart head-dress, and, what is more agreeable to re-make the costumes. It is not necessary to look up the designs of these times; the "Ciudad de Londres" has written to Paris and received those which will please us most. It is even an interesting visit to pay to this exhibition, which is just opened, and where everybody may find a happy idea for Carnival dresses.

I have just received news from Mar del Plata; high-life is beginning to arrive, and the seaside is becoming daily more animated. I would cite you some names, but, if peradventure, I forget some, I shall make enemies! However the "Chronique Mondaine" is not my business. and one must know how to check one self.

My friend says that the seaside dresses are in woollen stuffs or in cloth, of the English tailor style, and she explains to me some delightfully attractive ones, from Lombardi's. It is not yet very warm there, and one can only wear silk and light stuffs, for dinner. She tells me the story of a young lady's despair, whose name very often figures in high-life circles, and who could not assist at an evening party in the Bristol hotel, because the railway had forwarded her, instead of her own luggage, an officer's trunk! She was expecting marvels from Lombardi's which she had ordered exclusively for Mar del Plata, and received a beautiful Captain's costume! The next day, the two respective owners had each recovered their wardrobes.

Twice, I cite you, the name of the ladies' tailor in Calle Florida, because there he is in everybody's mouth. For seaside and dinner dress, evening "capes" in cloth or silk. or for travelling, they swear by him! "But it is very easy," says my correspondent, "to recognize the sham article."

Saturday. January 18th 1896.
Gold Premium.

FIRST RING 226.40%
SECOND RING..... 226.30%

The Ministerial "tip" semi-officially given in our colleague *El Diario* at the beginning of the week is proving true with a vengeance. On Tuesday last our Financial Sphinx delivered the oracle, foreshadowing a very heavy fall in gold, on the very heels of the Secret sitting in the Deputies. The shrewd took the hint, but the majority were too much impressed with the vote for fresh armaments to believe in the probability of any decline in gold. Five days have elapsed and gold has fallen four points, confirming the Minister's prophecy. If we rightly remember, Dr. Romero stated that the clip and crops were so large that the superabundant supply of gold and exchange must eventually force down the premium. The Minister necessarily cannot take the market into his confidence, nor can he unbosom his thoughts to the press, but it strikes one forcibly that behind the bearish argument of large clip and heavy crops there is something still more forcible, facts that the Minister cared not to disclose, on which his lips were sealed and could only be alluded to in figures of speech such as the quantity and quality of wool, wheat, and maize—other words for a plentiful supply of cash for the Treasury through improved credit and some financial operation.

The market smells a rat. Nobody knows outside Congress and the Government what took place in the secret sittings at the beginning of the week, but in the market they whisper that besides votes for armaments there was some important financial operation discussed. At the ring and in the hall the rumor ran round to-day like wild-fire that the National Treasury has managed to secure advances the amount of which is a matter of conjecture—the figure is supposed not to be under £5,000,000 stg. and not to exceed £7,000,000 stg. Should there be any foundation to this report we do not wonder that Minister Romero can venture to prophecy a fall in gold, on a plea that the enormous production of the country will buoy up exchange and keep the greedy Bolsa well glutted with gold. With such financial reinforcements all the extraordinary expenditure in the War and Navy offices for 1896 and 1895 can be met; it remains only to be seen in what shape the Government has to repay all these advances—balance of loans, whispers Dame Rumor. It souuds very plausible.

This being the settlement of the week's account there was a very sharp demand for cash gold, but every dollar required was supplied. A very active speculation set in and amounts were banged away in a rapidly falling market. Over six hundred thousand dollars changed hands for cash; the premium opened with a snap at 228%, reeled to 226%, and closed flat at 226.40%. Two hundrod thousand dollars were sold for the end of the month; the premium opened at 228.50%, fell to 247%, and closed at 227.80%—stiff difference for the 12 days. Business for the end of February embraced one hundred and fifty thousand dollars; the premium opened at 230 50% and closed at 229.50%—nearly three points contango. Something was done for the end of March at 231 and 232% premium. Over one million dollars changed hands at the first ring to-day. the gold market closing with a falling tendency all round. They say that the Gold King has turned round this week.

National Cedulas F were again weak, falling to 78.30. La Plata Cedulas were neglected at 17.50. A few Spanish Bank shares changed hands at 111 and Internal Bonds of 1892 at 76.

In view of the very large business done in produce in the last two days there was a much larger supply of bills in the exchange market and the rate showed a jumping tendency. A fair amount of business was passed at 48¼ d. on London, large amounts of bills offering. Francs were also active at 5.09 on France and 5.10 on Belgium, with symptoms of rise. Marks were freely done at 4.12½ and 4.13 on Germany. The rise in the price of wheat, maize, and wool in Europe must necessarily give a sharp spurt to exports here, and all the exchange brokers believe that the market is on the eve of a rise in rates. We see by telegrams from New York that some gold is coming from that quarter for the Plate—this time nearly two hundred

thousand sovereigns, some triangular exchange operation. The Plate is now the recipient of gold from Chile, Montevideo, London, and New York. About half a million sterling is reported now on the way out.

The demand for paper money continues on a lively scale in the market. Paper discounts are quoted firm at 8%, and gold, without demand, nominal at 7%.

It was stated in the coulisses of the gold circle to-day that the Argentine Minister, who left last night for Chile, via Mendoza, takes in his carpet bag the final propositions of the Argentine Government in the Limits Dispute. These propositions are in the shape of a protocol that, it is known, meets with the approval of Sr. Guerrero, Chilian Minister of Foreign Affairs: no wonder, therefore, so much importance was attached to the rumors of the latter gentleman's resignation. Thus, it all goes well, if nothing untoward happens, if the unexpected does not upset the Chilian Government coach, we may expect some very important news before the middle of February—let us hope that by that time the protocol of Argentina will be endorsed by Chile. All's well that ends well.

Mr. Gilderdale was welcomed to-day on his arrival from the Neuquen territory. He has brought up some gold from the Milla-Michi Co-gold mine in that territory: this gold was turned out by the Argentine Mint to-day in a bar of 2.6 kilogrammes with the stamp of the nation and guarantee of 7/8 fine: another sample, also from the mint, gave 886 fine. These two bars were exhibited in the London and River Plate Bank to-day: we think that Mr. Gilderdale ought to exhibit them also on the Bolsa, where they will create a sensation and conclusively prove that Argentines have a Transvaal of their own in the Nenquen territory. We are informed that the bigger bar of sample gold, worth, say £300 stg., only cost about 800$ m/n paper, all expenses told. Our Neuquen friends will be glad to read all this news.

That there is still a fraction in the market convinced that gold is cheap is conclusively proved by the steady withdrawal of specie at every settlement. The withdrawal from the liquidator's counter this afternoon was the largest since the December settlement. Six hundred thousand dollars were taken up. Meantime, it is well to take note that the gold king may now be dubbed the Bear king, and other bullish speculators have been rudely shaken in their convictions since last Tuesday, when the Ministerial Fiat appeared in the *Diario*.

Telegrams from Rio de Janeiro this evening quoted the rate of exchange on London at 9-5/32d.

That socialistic ideas, properly understood, are spreading here is evidenced by the fact that employers, instead of following up to the full the development of the "sweating" system, have set themselves to ameliorate the condition of their hands, making provision for those who grow old and grey in services. It is a kind of disinterested Mutual Aid Society idea founded on the profits of the business. Mr. Molet has issued a circular that sets a precedent in this line, and we regret that to give the details in full would occupy too much of our space, but the result is that by a withdrawal of a certain percentage of the gross profits every year a "superannuated" fund is formed that will allow of those past work drawing a sum more or less about 50 % of their monthly wage. We hold up Mr. Molet's exemplary project to the light as an example worthy of general admiration and imitation. It cannot but be productive of good even to employers themselves, as the working classes are compelled for their own sakes to further their employers' interest to the best of their ability, ungrudgingly and gratefully.

The estancieros of Villegas have informed the La Plata Government that it would be advisable, in view of the great mortality in the flocks in that partido, to send a veterinary surgeon to diagnose and suggest a remedy, as the estancieros have been powerless to arrest the disease. The Government will no doubt take immediate action in the matter, as it is a very serious thing for owners and may spread to other districts unless steps are taken to isolate the evil.

There is a fairly big consignment of precious metal coming South on a visit from the States. The s s Leibig brings £100,000 and the Manicovia £70,000. This is the biggest consignment yet sent down from that quarter. The steamers left New York on Friday last.

The road from Acha to Chosmalal is creeping along very steadily; 60 men of the regiment of engineers, at work for for some time thereon, have finished the first section of 40 leagues out of the total of 116, and the Government is now reinforcing the number at work with a further contingent of 40 men of same regiment who will leave shortly for the scene of labour under command of Captain Vallée. At headquarters the desire to expedite the business is pronounced, and Captain Vallée promises to have it all fixed up within four months.

The move in the Reichstag of the conservative-agricultural section to hamper Argentine cereal exports to Fatherland by a stunning tax was such a complete fiasco that it has created a very favorable impression here, since it shews that the German Parliament is too wide awake to its own interests to provoke a reprisal war for the sake of protecting a class. It is thought quite possible if not probable that the attempt will be renewed, but there does not seem much likelihood of the idea making any headway, in view of the encouragement received at first trial. It is a triumph of common sense and sound economy, and the cable of the news coincides very felicitously with the celebration of the German fetes here.

The Banco Comercial de Las Flores has handed round its report and balance sheet for 1895, the latter shewing a profit of $24,553, which reads very well for the management of this young and prosperous institution.

Advices from the Mount report a terrible sinking in the prospects of the new bank, which seems such a tolerably sick business now that already cabinet complications and ministerial promotion are hinted at, not vaguely but roundly. Well, it is not the first stage coach that has had a temporary check through want of cohesion in the principal arrangements. A new project, we have no doubt, will soon be on the tapis. New men, new ideas, and the wheel keeps revolving. River Plate finances are nothing if not Kaleidoscopic.

Half a million gold dollars changed hands at the second ring in a more or less steady market. Business for Monday delivery embraced two hundred thousand dollars: the premium opened at 226.30 %, fell to 225.80 %, rose to 226 ⅛ %, and closed at 226.30%. One hundred thousand dollars were sold for the end of the month: the premium opened at 227 %, rose to 227.30 %, and closed at 226.80 %. An equal omount was sold for the end of February, the premium closing at 229 ⅛ %. A small business was done for end of March at 232 and 231 ⅛ % premium. National Cedulas F glided down to 78. La Plata Cedulas rose to 17.80 and Funded Bonds of the Floating Debt to 78. A "bagatelle" was done in Internal Bonds of 1892 at 76.

In the *Produccion Argentina* we see that the exporting firm of live-stock for Europe of Messrs J. J. Erausquin and Co, have chartered 14 steamers, which will receive about 2550 steers and 7000 capones for England; this stock comes principally from the estancias of Messrs Saturnino Unzue, E. Ramos Mejia, Floro Ugarte and Octavio Gonzalez. The firm seems evidently to be ploughing its way in the estanciero's favour. The *Produccion Argentina* also announces an important "feria" auction, for the 26th inst, in Mr. F. Senillosa's establishment in General Belgrano F.C.S.. The auctioneers are Messrs Bautista Alcheurron and Co.

Mr. A. Carbone, so favorably known for many years as manager of La Platense Steamship Company, has joined the Rosario firm of Ibañez and Sarsotti which will go under the new style of Carbone, Ibañez and Sarsotti with head office here in Calle 25 de Mayo No. 165, with branch offices in Rosario ' Diamante, Parana, Colastiné and Santa Fé. This firm, as our readers know, own the flotilla La Ceres and are agents for the steamers going to Patagones. We trust that Mr. Carbone will put on better steamers for the passenger trade; all the Rio Negro settlers will bless Mr. Carbone if he makes this improvement.

The Executive has issued a decree formally closing the late Parliamentary session.

Mr. Santos Unzue's resignation has been accepted of his post as member of the lottery-commission.

The Minister of Public Instruction has approved the programme of studies for the Pilots' school and signed the decree appointing Director and his star of teachers.

The Minister of Finance has fixed the price of gold for payment of Custom-dues at 326 for Monday, January 20th.

SALES AND AUCTIONS.

The Saladero Casas Blancas of Paysandu has purchased 800 prime steers from the Unzue Estancia Potrero, Dépt. of Uruguay, at $12 gold per head. Another matadero, that of Messrs. Rocca y Cia., has taken up 3,000 steers, 3 years and upwards, from Messrs. Vivanco and Pellegrini's Estancia. La Chilca, in 25 de Mayo, at reserved price.

The veteran of veterans Don Adolfo had pamphlets handed round to-day of the great annual sheep show and auction to be held at his mart on 20th and 21st inst. The animals on show will form a splendid collection. All the breeders of the country will send in a contingent, so that it will be an exceptional opportunity for acquiring new strains.

One of the most important transactions in live stock effected for quite a time back is reported. Messrs. Kingsland and Brougham have contracted for 900 novillos, minimum weight 650 kilos. from the Salado at 35 gold per head; to be taken before 31st March and 2000 head to pick from. It is a very important business.

Messrs. Bossio and Camuyrano have disposed of eleven imported Lincoln rams for $9700, giving an average of $881 per head, buyers Dr. F. Perez, G. Echeduri, P. Estanga, L. Martinez and Lesazo add F. Guallica.

Mr. Hamilton W. Langley, well known estanciero, writes from London that a batch of steers landed in Deptford from the Unzué estancias attracted much attention amongst the English buyers for their size and quality, though from the trip having proved a rough one, the animals were naturally in poor condition, and still they were taken for North American cattle by many, and all round considered the best lot ever landed in England from the Argentine Republic.

The Peña saladero has just slaughtered 450 head of cattle from the Unzué properties and will continue working until 8000 head have been polished off.

There was not even a quarter head of steam on at the marts to-day. Messrs. Bollini and Co suspended the sale of the house property Azcuenaga 836 which was for account of the National Mortgage Bank. Messrs. Bollini and Alcorta sold a site in Calle Rawson between Corrientes and 2da Corrientes for $60.50, buyers Messrs. Segesso Calcagnino. And this was all that was done.

PRODUCE MARKETS.

The fall in gold and the sudden sweep down in wool operations were the characteristics of the day. The slump in the wool markets can only be compared to the excessive changes in the weather. What brought the gold eagle down is still a subject of comment; as to wool we can understand the fall, as the 'artistas' are busily engaged in shipping their former sales, which seems to occupy all their attention. Nothwithstanding all this, the telegrams from London about the colonial wool auctions continue at the same prices. During the week 68,000 bales were sold, 4,000 only being retired, the attendance was large and competition well kept up; the largest buyers were North Americans who are probably speculating for a rise as the current belief in those centres, is that when the rise comes it will be sharp. Out here, the demand for fine wool has relaxed, the interest observed amongst French "artistas" for this article has declined greatly during the week; it seems that their orders are all filled, and they have not received further fresh orders.

The arrivals in the Central were slightly under the mark, as the total barely reached 600,000 kilos, the report spread this evening that 800,000 kilos were sold is not a fact, several authorities informed us that the operations did not touch 500,000. We are well aware that, no matter, what basis the market is working on, Saturday always throws a damper on business.

The sheepskin sales in Liverpool were weak; the prices fell a half penny, the attendance, we understand, was small, reducing the sales to only 800 bales and leaving a surplus of 700 unsold, however, this does not astonish us here, as positively speaking, our prices for skins are far lower this year than in the last one.

The stock of wool is something enormous. In the Central we notice that the amount is nearly 14,000,000 kilos. The prices were to-day as follows: superior light cross Lincoln from $10.50 to 11, good from 9 to 9.80, fine wools without seed from 8 to 8.80. Mezclas and other mixed wools find no buyers.

The principal sales were as follows:—

CONSTITUCION.

Cross Lincoln wool—3000 kilos at $9.50, 15000 do 8.80, 8000 do 8.50, 15000 do 8.30, 1200 do 7.60.

Horse hair—100 ks at 14.50.

Business in maize has fallen off considerably in the past days. Exporters are now only paying 3.10 for morocho in the Riachuelo and 3.05 in the Darsena; for yellow maize the following were the rates: in the Riachuelo 3.45, in the Once 2.90 and 3.40, in the other ports ranged from 3.40 to 3.60, 10 cents less than a few days ago. A parcel of 100 tons inferior yellow maize was sold in the Darsena at 3.05; another sale of 900 tons, to be received outside, at a reserved price, was also reported. The latest telegrams from London say that wheat in that market is firm at 24 shillings, here the article is slow, operations are on a very gingerly style, a few lots of old tuselas were sold at 7.85 and saldomé at 7.70; the new crop is quoted at 7.75 and the barletta at 7.30 the inferior or damp qualities are so-so at 5.30 and 6.50 the 100 kilos. A few days ago 4000 bags from the Martinetas in the South of the Province were sold at 8 dollars, an inferior parcel of 2000 do on board was picked up at 7 dollars. Prices in linseed are far higher this year than during the previous ones, yesterday some cargoes were sold at 33 shillings, this is the highest price paid this season; the rates here are fast approaching 3.25 and 3.30, this is greatly due to the slowness of arrivals, the lots on hand find an easy outlet at 10.75 the 100 kilos: a parcel in the Riachuelo was sold at this price, in Rosario, linseed in waggon fetched 10.50 and 10.55, It is calculated that in the past three days 50,000 bags have been exported from the Fosario port. Large shipments will be sent off during the month for London, Hamburg and Antwerp.

Business in Bahia Blanca is increasing: we heard to-day that 45,000 kilos of wool were received in that town, the colonies have begun to reap their crops; in Pigué alone, it is calculated that the yield this year will be over 25,000 bags. In the port several steamers are busy loading produce.

The present stock of cereals on hand in the Central Market is as follows:—

Wheat.....	84,754	bags
Maize.....	115.158	"
Various cereals.	8,830	"
Flour.....	3,756	"
Total.....	270,548	bags

We take the following from Messrs. Gibson Bros' review on the condition of produce. Referring to wool, they say: The expected reaction anticipated by consignatarios in wool has not yet put in its appearance; on the contrary the sales were so flat that they nearly killed all animation. Prices fell all round from 20 to 30 cents, the greater part of the sales were only effected owing to the concessions the consignatarios were obliged to make; the bad state of the market was unluckily backed up by the enormous stock on hand, in the Central 15,000,000 kls. are still piled up, in Constitution 2,000,000 and in the various barracas from 2 to 3,000,000 kilos. Another cause of the depression is the entire absence of German "artistas", the few that operate only comply with limited orders from the continent. As the principals buyers for foreign fabrics have already sufficient for their wants, a thud is also felt in fine wools. Some interest was noticed in cross Lincoln lambs wool, but it was only a flash in the pan, as it has completely did out. Now that the news from Europe is improving, we expect to see the depressive cloud which hangs over our wools disappear and a new sphere of activity take its place.

The Rosario markets presented greater firmness to-day, though exporters worked in a rather shaky style; through their creeping movements they managed to obtain several parcels of wheat at 6.40 and 6.50, they say that these are the highest prices they can pay for Hamburg and Antwerp. On the whole, operations were small, wheat to be delivered in February was quoted at 6.80; lots on hand were sold at 6.80. The small attendance of exporters is a considerable drawback to general business. The current belief amongst consignatarios is that the article is bound to rise in Europe; the total amount sold did not surpass 15,000 tons. Transactions in maize are smaller than ever, consumo paying only 2.75 for very good classes. A sale of 2000 bags, of good exporting quality at 2.20 is still on hand: the demand closed during the evening a little firmer, as the news from Buenos Aires reported the article steadier. The sales in linseed do not exceed the usual daily business, the demand seems lately to be rather limited, the market prices have not changed; 10.50 and 10.60 are still current, parcels on hand fetch a little more, a lot of 800 bags placed on the Central Argentino moles was sold at 10,85. The movement of the day was in the port, when exporters are busy shipping their cargoes. All other produce was dull.

"The bright, moving picture of the country's trade, commerce and production on the opening year consoles us with the conviction that its future is superior to human error and independent of individual influence."

The above lines, quoted from THE STANDARD of 3rd inst., are the true expression of our sentiments respecting the present position and expected future of the country, if we are to judge from what has occurred to us, as a minute fraction in its common wealth, during the year that has expired, and the hopeful advent of the new one on which we have entered.

If we take our branch of trade, and instance our business in particular, we have to admit that the prospects as regards the country at large are not at all exaggerated in the transcript we have made us of, as the increase in our concern has been beyond our most sanguine expectations during the old year, and, on the eve of the new one, promise is given of a very satisfactory augmentation.

To keep pace, therefore, with this hopeful state of affairs we have made ample provision, and our stock, which is always kept in adequate supply, will be periodically increased with every novelty to meet the increasing requirements of the year.

ARRIVALS.

The following vessels arrived in the Roads to-day and were visited by the Port Doctor:—

French ss. Bretagne from Marseilles with 91 passengers and general cargo to H. Hy.

British ss. Boston City with 24 peones in ballast to Camuirano.

Do do Feliciana from Cape Town in ballast to Delfino.

German ss. Falkenburg from Santos in ballast to V. Freeden.

British bq Mignonette from Quebec with lumber to order.

ENTERED.

British ss. River Mersey from roads at Boca to discharge.

Do do Rowtor from roads at Dock 3 to load.

French ss. Bretagne from roads at the Docks to discharge.

German do Falkenburg from roads at Dock 2 to discharge.

DEPARTURES.

British s s. Ethelburga from Riachuelo for Rosario to load.

British bq Luarca from Riachuelo for Rosario to load.

French bq Saraca from Riachuelo for Rosario to load.

RIVER STEAMERS.

The Venus, Helios, Cosmos and Golondrina from Montevideo and San Martin from Asuncion will arrive to-morrow at the South Basin.

The Cosmos from Salto, Saturno for Asuncion, Venus for Montevideo and Adriatico for Carmelo will leave to-morrow.

The Eolo from Montevideo and Tridente from Salto will arrive on Monday.

The Eolo for Montevideo and Tridente for Salto will leave on Monday.

GENERAL.

There were only 16 feet of water today in the channel. That was bad enough, but in the Riachuelo the water was so low that the Arona drawing 11, and the Carl Haasted drawing 10 feet, were both aground. To add insult to injury the chief of the Riachuelo Works fined the captains of both vessels for the disaster.

The lowness of the river prevented the entrance from the roads of the s.s Zanzibar and Honoluln, and the exit of the County Antrim.

The Litoral is expected from Patagones on Monday and the Villarino should tomorrow leave for that port.

The mails by the R.M.S. Thames should be delivered to-morrow during the day. The Thames herself should also to-morrow enter the La Plata port.

She brings 36 first, 7 second, and 72 third-class passengers, who should be brought to town by a special train leaving the Dock Central at 12 m.

The Italian ss. Guiseppe from Genoa, Tucuman from Santos, and Capri from Rio should all three arrive to-morrow in the Roads.

Free pratique was to-day accorded to all the vessels "in observation," with the exception of the Boston City which arrived during the day. The same favor will probably be conceded to her to-morrow.

The French packet Portugal should tomorrow leave the La Plata port for Bordeaux.

Bills of health were issued to-day to Medoc bound for Bordeaux, the Olaf for Santos and the Holyrood for London.

The Moorgate is expected to-morrow in the La Plata port from Cardiff.
